

# Scorchlander Processing Guide

*Created by: NotKole - Better than SunnyLBlackwood*

*Proofread/edited by: Aupheric*

*This guide offers you a complete script that you may copy and paste in order to quickly teach Scorchlanders the information they are required to know.*

*You should wait until each message disappears before copying and pasting in order to give scorchlanders an adequate amount of time to read through the messages. You can copy and paste multiple in a row if the previous message was short.*

*All the messages are split to avoid being too large to copy and paste.*

## **RULES WITHIN WICKED:**

I will start off with the basic rules you will need to follow within WICKED.

Do not team-kill, random-shoot or random-kill.

Only authorized personnel may leave the facility and enter the scorch unless you are participating in an event.

Do not bypass any in-game or disaccourd filter.

Do not go to jails or offices without being Officer+ or of a specific divisional rank.

Do not go into Lab 2 unless permitted by a WRD Research Assistant +.

You are allowed to random-shoot at targets in the firing range.

You should be keeping your helmet on at all times unless asked by WRD during scanning.

Allies have brown name tags and should be treated the same as WICKED members.

Do not make threats, insults or racial remarks towards any allies, WICKED or scorchlanders.

## **DUTY AS WICKED:**

Next, we will cover your duty as a Recruit within WICKED.

Your duty as a Recruit will consist of the very basics. You will need to stand on the pads, these are the grey rectangles that you may have seen well coming into the facility.

You should not be leaving these pads until you're of proper rank. The only time you may leave these pads is to purchase food and ammo at the firing range or to attend events.

As you rank up, you'll be able to go into more areas. These areas will be covered during orientations, which you will need to attend as a Recruit/Cadet.

## **EARNING XP IN WICKED:**

Next up, we will go over how you will earn XP within WICKED.

As a recruit, duty-states will be the easiest way to rank up. You can find the duty-states by pressing G and going to the misc section.

There, you will find information regarding duty-states and how to properly submit one.

As a recruit, every 10 minutes is equal to 1 XP. As you rank up past Recruit, that rate changes to 1 XP per 30 minutes.

You are unable to earn duty-state XP as a Cadet. Any rank past that up until Senior Operative is allowed to earn XP from duty-states.

Other than duty-states, you can attend events such as patrols and trainings to earn XP.

Patrols will grant you 1XP and any training will grant you 3XP. Each training has a certain group of ranks who can attend.

You will need to join the disaccord server to rank up past JO.

## **IMPORTANT KEYBINDS:**

Next, we will go over the important keybinds for WICKED.

N - Surrender, which is considered treason within WICKED. You should never use this key.

J - Salute, you should be saluting anyone who is Officer or above.

T - T changes your radio from speaking to listening. You can tell what mode it is in at the top.

Chatter = your messages appear on the radio, listening means they don't.

X - The X key is to crouch, which will hide your name but significantly lower your speed.

L removes your helmet. Officer+ may do this freely along with some divisional ranks.

## **LORE:**

Finally, we will go over the lore which can be found on our group page.

After the solar flares scorched the earth in 2031, it was discovered that only 70% of the population would survive off of the remaining resources.

The Flare Virus was created to control the population but later grew out of control turning infected into what we know as cranks.

WICKED's goal is to find a permanent cure for the virus and save humanity.

## **PROCESSING LOGS:**

Now that you are done processing the scorch lander, continue to crouch next to them and you can ask them to say "WICKED is GOOD!" or just take the screenshot with them.

After this, you may post the scorchlander into #scorchlander-processing and with the format:

Processor: (YOURNAME)

Processed: (SLNAME)

### EXAMPLE:

If you are Lead Specialist+ you may accept them to the group after checking if they're blacklisted, KOS or an obvious alt. Post in #processing-logs, following the format in pins.

If you're not a Lead Specialist+, you should ask someone who is to accept them into the group.

When they're accepted, tell them to rejoin the game.

**WICKED IS GOOD! | HONOR IN DUTY!**
